

## GOES TO TELL T. R. OF BIG ROW AMONG ILLINOIS MOOSERS

Dr. Doyle Says Wilson Will Get Votes Unless Colonel Acts Quickly.

### WANTS THIRD TICKET

Declares Gov. Deneen Is Playing for Delay in Order to Help Himself.

The Progressives of Southern Illinois, through a spokesman, sent an ultimatum to Oyster Bay to-day, demanding that the Colonel compel a third party organization from top to bottom of the State ticket. Failure to do so said Dr. John J. Doyle of Springfield would mean that the Roosevelt men in the State would cast their votes for Wilson.

Dr. Doyle left the Hotel Astor on an early train for Oyster Bay. He is armed with authority to speak for the Bull Moosers of Southern Illinois.

"This matter must be put straight up to the Colonel," he said. "We have reached a point where we will not tolerate the straddling of the question by Gov. Deneen, Messrs. Dewey, McCormick and others, who want to play both ends against the middle. Deneen figures on naming Roosevelt electors in Illinois without a State ticket. He knows that cannot be done under the law. He has delayed action until it is now nearly impossible to complete a State organization."

### SAYS DENEEN WANTS TO KILL PROGRESSIVE PARTY.

The Governor simply wants to kill off the Progressive movement in Illinois. Under the law it is necessary to nominate at least a Governor and State Treasurer to make a third party's Presidential electors hold in Illinois. If we wait any longer Roosevelt will not be able to have any electors and we won't be able to derive any benefit from beating the regular organization seven years to one.

"They're taking the matter up there in a half hearted way to-day and I'm going out to the Colonel's house and keep at his end of the wire. The sooner he takes the bit in his teeth and goes after four-flushers and side-steppers like Deneen, Fiske and others the better for him. If he doesn't then I'm prepared to show him that some 50,000 progressives in the Southern Illinois are going to vote for Wilson."

The Springfield leader said there were two United States Senatorships, a Governorship, the entire State organization and city patronage at stake in this election. He declared that Deneen was not able to trade the progressive vote of Illinois with the Taft managers—a situation which Dr. Doyle said he would be able to prove to the Colonel.

### BULL MOOSE COUNTY CONVENTIONS BEGIN TOMORROW.

The county conventions of the Bull Moose party will begin with Tim Woodruff's meeting in the Johnson Building to-morrow night. Eight delegates to the National Progressive party's convention at Chicago, Aug. 6, will be chosen. In the event that the Brooklyn group find more than eight men willing to make the pilgrimage, the eight votes will be divided so that sixteen delegates will be named.

The convention of the Manhattan and Bronx divisions of the Bull Moose, Chairman Hitchcock announced to-day, will be held in the Carnegie Lyceum July 31, at which twenty-six delegates, each with one-half vote, will be chosen to go to Chicago. Other delegates will be chosen at county conventions to be held during the week in the up-State districts.

The New York and Brooklyn delegates will leave the Grand Central Depot Aug. 2 in a special train of ten cars. Stops will be made through the State, picking up delegates and Bull Moose men along the way.

Chairman Hitchcock stated to-day that in all but four counties in New York State a Roosevelt organization had been completed. The chairmen of these organizations, many as many workers as are able to come will meet in the Metropolitan Tower headquarters to-morrow at 10:30 A. M. Col. Roosevelt will address the meeting.

### FLINN AT OYSTER BAY DENIES TALK OF SPLIT.

Pennsylvanian Says There Will Be Roosevelt Electors in the Field.

OYSTER BAY, July 22.—Former State Senator William Flinn of Pittsburgh came to Oyster Bay this afternoon to discuss the Pennsylvania situation. He denied the reports that there was a difference of opinion between himself and Col. Roosevelt in regard to the selection of candidates for Presidential electors.

"There's no truth in the stories of friction in Pennsylvania," said Mr. Flinn. "Some of the newspapers have wonderful imaginations, that's all."

"Will there be a third party ticket in Pennsylvania?" he was asked.

"Sure," responded the Pittsburgh leader. "At least," he added, "there will be Roosevelt candidates for electors. The rest of the Republican ticket is all right."

"What plan will be adopted?" "I've got to see the Colonel," Mr. Flinn responded. "We will talk that over."

Mr. Flinn said whatever Col. Roosevelt wished would be acceptable to him and that the object of his visit was merely to learn the Colonel's views.

Col. Roosevelt will go to New York to meet the State leaders at the headquarters to-day.

## GOV. DENEEN TELLS ROOSEVELT MEN HE WILL STICK TO TAFT

Other State Officials of Illinois Also Declare Against the Colonel.

SPRINGFIELD, Ill., July 22.—The committee of five progressive Republicans, who were appointed by Medill McCormick to wait on Gov. Deneen and ascertain whether he would support Taft or Roosevelt for President, were informed by the Governor to-day that he considered Taft the regular nominee of the Republican party for President, and that as such he felt obliged to support his candidacy.

Secretary of State Doyle, Auditor of Public Accounts McCullough and Attorney-General Strickland were waited on by the committee and gave the same answer as did Gov. Deneen. Andrew Russell, candidate for State Treasurer, told Chairman McCormick he would send him an answer by mail.

Ident. Gov. Oglesby, who is at Elkhart, was written by Chairman Medill McCormick for the committee, but has made no answer as yet.

CHICAGO, July 22.—When shown Gov. Deneen's announcement that he would support President Taft, Senator Dixon, campaign manager for Col. Roosevelt, said:

"It simply means that Gov. Deneen is not in the Progressive party and that a third party candidate against him will be put in the field."

OYSTER BAY, July 22.—When Col. Roosevelt was informed of the decision of Gov. Deneen of Illinois to support President Taft he indicated that the news was no surprise to him.

"Yes, I thought so," said he.

Further than that he would make no comment.

### WILSON NOT TO RESIGN AS GOVERNOR OF JERSEY.

SEA GIRT, N. J., July 22.—Gov. Wilson returned to Sea Girt to-day from his "retreat" at the home of a friend, with a record of sleeping twenty-four hours out of thirty-six. He announced he would forego his usual weekly trip to Trenton to-morrow and again go into seclusion to write his speech of acceptance.

He hopes to write the speech within two or three days. No one here except his family, his private secretary and the newspaper men will know his whereabouts during this period.

Close friends of the Governor announced to-day that the Governor had decided not to resign as Governor of New Jersey during the Presidential campaign. The Governor has indicated that this would be his decision in talks with interviewers.

## Reduction Sale of Women's Low Shoes

An exceptionally fine lot of high grade ties at the following reduced prices:

Formerly \$20 \$23 \$25 \$28  
**at \$17**

## BUSINESS WOMAN GETS HER START FROM HER DOLLS

"Women Are Losing the Art of Sewing," Says Miss Josephine Dowling.

By Sophie Irene Loeb.

Beginning as an errand girl at \$1 a week and now commanding a salary of \$7.50 is the experience of Miss Josephine Dowling, foreign and domestic buyer and director of 300 workers in one of the most fashionable shops in Fifth avenue.

"And if I have achieved any success," said Miss Dowling, just before leaving for Paris, "it is due to my love for making dolls' clothes when a little girl I want to say right here that every mother's daughter should be encouraged in this little pleasure which becomes profitable in the later years."

"There are too many women in the world to-day who leave every stitch of sewing to some one else. In grandmother's day every woman knew how to sew, there was no exception. It was one of her assets as a woman, and in truth, almost a disgrace not to know."

"At present there are many women who do not know anything about it. This is a fallacy. It should not become a lost art with the fair sex generally, and left to few. For we will continue to sew until doomsday. Besides it has become more of an art also. More hand work is demanded, and strange to say, less is done."

"Many gowns are put together entirely by hand and the demand for them is increasing daily. So that the woman who must needs earn a livelihood, or has daughters who are likely to have that need, should encourage this line of endeavor which is as important as cooking or any other home necessity."

### PLENTY OF WORK FOR SEWING WOMEN.

"Any woman who can sew well need never want for work. The country is full of people who will pay her her worth. It is highly necessary that this feature be recognized by educators, and the fact that the sewing is taught in the public schools is commendable to say the least."

"It should be made distinctly compulsory and never elective. Every girl should have some knowledge of how her clothes are put together, whether later she uses it as a business or not, or has money enough to have it done. Of course every woman is not a born dressmaker, and to many sewing is distasteful."

"This woman, who pursues the work

can rarely become a success when she goes into the business of it. She must like sewing. It is because I always enjoyed designing things and seeing them 'turn out' successfully that gradually it became a part of me.

"From making my doll's clothes there was just a step a few years later to occasionally making dresses for my friends. Then, when the need came, I went into a shop to sell gowns. The designer, often when in a little difficulty, having learned my attribute in this direction, would call me into conference."

"Here I may say that one of the big elements of success enjoyed by business men is in knowing the special attainments of his employees and utilizing that speciality. The successful individual is he who is in close touch with these elements."

"Thus, it came about, that they recognized my adaptability in that direction and so I gradually worked into designing. Soon I was enabled to go to Paris and take a year's course in designing, color value, &c., just to get their angle. From the work of designing and supervising workers it is only a step to that of purchasing, choosing models, &c."

### MUST BE A STUDENT OF HUMAN NATURE.

"Yet, this is not the knowledge necessary for the woman who would command good salaries along these lines. She must be a student of human nature and have the faculty for extreme patience. There are many kinds of nature to deal with, not only in the workshop, but with the customer."

"To have everybody in the shops 'bustle at it,' cheerful and contented, keeps the wheels moving smoothly and the consequent finished work satisfactory. The average customer wants to know the buyer or the producer of the models. She wants to get in on the 'ground floor,' as it were, for the latest idea and the best results."

"Therefore, no matter if she purchases very little, yet exhibits extreme courtesy and attention, that very little transaction gives a foundation for the bigger one later on. Thus the domestic and foreign buyer at any large establishment must not only produce, make, alter, fit, but is responsible for the successful sale of all she purchases."

## HALF MILLION FOR SCHOLARSHIP INTERCHANGE.

Report Shows That Estate of Nils Poulsen Was Worth Nearly a Million.

The final report of State Tax Appraiser William Wentz on the estate of the late Nils Poulsen, the Brooklyn founder and philanthropist, was filed to-day with Surrogate Ketchum of Kings County. The report shows that Mr. Poulsen, who was an elderly bachelor, died possessed of property worth \$534,000, all accumulated by his own efforts.

The value of the estate, after deducting debts and administration expenses, is \$797,859.15. Most of this by the terms of the will was left to philanthropic and charitable objects.

The \$30,000 Poulsen mansion on the Shore Road, Bay Ridge, was left to William M. Dykman, the life-long friend

and counsellor of Mr. Poulsen. Something under \$300,000 is to be distributed to relatives, servants and various Scandinavian institutions for the care of the sick.

The sum of \$24,000.00 is available for the purposes of the Scandinavian Foundation, an institution of which Mr. Poulsen was one of the founders. This fund is to be applied to the education of Danish, Swedish and Norwegian students in American institutions of learning and to the cost of the education of American students in Scandinavian colleges. An idea of educational interchange something after the order of that put into effect by the English empire builder, Cecil Rhodes.

## LIFE SAVING MEDALS GO TO SIX POLICEMEN.

In a neat little speech commending them for their bravery, and a hearty handshake that went with the speech, Commissioner Waldo to-day presented six members of the police force with

medals for saving life. One gold medal and five bronze ones with \$25 in gold to each man had been donated by the Life Saving Society of New York.

The receiver of the gold medal was Sergeant Michael J. Mulhall of State Island. Bronze medals and money were given to Sergeant John A. Hamill of the West One Hundred and Twenty-fifth street station; Patrolman William Nelson of the same station; Patrolman William H. McSwenney of Harbor A Station; Patrolman John J. Byrne of the West Thirty-seventh street station and Patrolman Mat. L. Sigel of Old Slip station.

The Commissioner remarked that it was a pleasure to see such men in the department, whereas they all blushed like modest heroes and went back to duty.

## Young's Hats

Prices as light as the straws themselves—  
**1/3 off on all Young Straws.**

**2,000 Exquisite Waists Values to \$3.00 \$1.48**  
**1,000 Reproductions of \$5 French Blouses \$1.89**

WHEN YOU COME to-morrow expect to be surprised. If these had not been the prettiest, daintiest waists—waists entirely out of the ordinary—it would be the height of folly for us to have bought 5,000 of them at this season.

One of the best manufacturers in the United States asked us to relieve him of the surplus stock, and named prices that were less than half their true value—YES, A GOOD DEAL LESS.

We looked the waists over carefully, noted their unusual quality, excellent work, the careful sewing of the sleeves, the boning of the collars, all the little details, and we saw that they were waists out of the ordinary. Here they are, on sale to-day and to-morrow at prices that should create the largest waist sale New York has known for many a day.

Our Sixth Avenue Windows are crowded with these waists. Our Main Aisles and our Bargain Squares overflow with them; they cover the tables of the regular waist section.

## 100 Models—Each Different

Trimmed with fine Val. real Cluny and Irish crochet laces, and a great many have embroidery combined with laces; some of them have fronts made entirely of fine Swiss embroidery. High necks and low necks in V and square effects. Elbow length sleeves and three-quarter length sleeves. The materials are white batiste, allover embroidery, French voiles and Persian Laines.

**Waists worth up to \$2 at \$1**  
**Waists worth up to \$3 at \$1.48**  
**Reproductions of \$5 French Blouses at \$1.89**

**\$1.89 \$1.48 \$1.89 \$1.00**
